Greg:

Thanks for reaching out. Bob is back but I actually worked for the County airports division early in my career so have the most info. The HMB Airport is owned and operated by the County, and is completely within the unincorporated County. The Airport was deeded to the County from the Feds after world war 2 and is funded through user fees, FAA/CalTrans grants, and County support. The City has no ownership or jurisdiction over the property, but we are interested in impacts from the airport to City residents.

The Airport is managed by the airports Division of County Public Works, and their headquarters is based out of the San Carlos Airport. They previously had one or two operations staff on site daily in HMB. I don't know what their operations looks like at this time.

Please let me know if you have any questions.

Sincerely,

**Matthew Chidester**
