Address _____

Montara, CA 94037
City _____

mccgreggd@gmail.com

Telephone ___ Email Address _____

Site Information (if different from address):

Street Address or Nearest Intersection:

5th and LeConte

Brief Statement of Problem:

This is an uncontrolled 4-way intersection in Montara within close proximity to Farallone View Elementary School. This intersection is a high-traffic route to school by vehicles, bicyclists and pedestrians. The school is the primary cause for increased pedestrian volume through the intersection, mostly vulnerable school children. This intersection is the location of a recent accident involving a student on a bicycle and a moving vehicle.

The Connect the Coastside plan recommends an all-way stop at this location, as part of a larger plan to provide a continuous safe route to the school, including 5th Street and Le Conte Avenue, which was recommended on the 2014 Safe Routes to School Farallone View Elementary School Walk & Bike Audit prepared by Kimley-Horn & Associates, Inc.

Site Information (if different from address):

Street Address or Nearest Intersection:

Birch and Franklin

Brief Statement of Problem: _____

This is an uncontrolled 4-way intersection in Montara within close proximity to Farallone View Elementary School. This intersection is a high-traffic route to school by vehicles, bicyclists and pedestrians. The school is the primary cause for increased pedestrian volume through the intersection, mostly vulnerable school children.

Franklin is used by many students to access a walking trail direct to the school. Currently Franklin is a thoroughfare with dangerous cross street traffic that is en-route to popular GGNRC trailheads and other public facilities.

Information (if different from address):

Street Address or Nearest Intersection:

7th and East

Brief Statement of Problem: _____

This is an uncontrolled 4-way intersection in Montara with close proximity to the USPS. Montara does not have street postal service, so this creates high traffic volume on 7th St. to the USPS, traveled by nearly all Montara residents.

This intersection is the location of a 2 car collision with a near-miss involving 2 children playing in their own corner lot front yard. Both 7th St and East St. lack sidewalks or any other barrier to residential properties. (email and photos accompanying)
