THIS AGREEMENT, dated February 3, 1976, is made and entered into by and between the City of Half Moon Bay, hereinafter referred to as "Half Moon Bay", and the Montara Sanitary District, hereinafter referred to as "Montara", and the Granada Sanitary District, hereinafter referred to as "Granada";

W I T N E S S E T H:

WHEREAS, the parties hereto have in common the power to plan for, acquire, construct, reconstruct, alter, enlarge, replace, repair, maintain, manage, operate and control facilities for the collection, transmission, treatment and disposal of wastewater for the benefit of the lands and inhabitants within their respective boundaries; and

WHEREAS, it would be in the best interest of each of the parties hereto, each of which is located within the Half Moon Bay Basin, and the lands and inhabitants within the boundaries of said parties, for a single representative organization to be established, composed of elected officials from said parties, which would be capable of developing a joint waste collection, transmission, treatment disposal and management plan (herein "wastewater plan") for the Half Moon Bay Basin, and capable of acquiring, constructing, maintaining, managing, operating and controlling facilities for the joint collection, transmission, treatment and disposal of wastewater within said basin; and

WHEREAS, it has been determined that an areawide wastewater plan for said basin and the providing of facilities for joint collection, transmission, treatment and disposal of wastewater within said basin may best be undertaken and achieved by cooperative action of the parties hereto and in the manner provided for in this agreement; and

WHEREAS, Title 1, Division 7, Chapter 5 of the Government Code of the State of California authorizes the joint exercise by agreement of two or more public agencies of any power common to them;

own behalf, implement, and enforce through civil or criminal means, such standards and regulations.

The above powers are subject to the restrictions, upon the manner of exercising said powers, set forth in the Sanitary District Act of 1923, as amended, being Sections 6400 *et seq.* of the California Health and Safety Code.

(D) Boundaries. The boundary of the Authority shall be the consolidated boundaries of the member agencies. In conjunction with the consolidated San Mateo County mid-coastside wastewater treatment and disposal system (Plan F), being the project authorized to be undertaken by this Authority, the service area boundaries are defined as the current corporate City limits of the City and all lands within the Districts not zoned RM (Resource Management). Said boundaries shall be set forth and depicted on Exhibit "A" as amended or supplemented from time to time, attached hereto and by this reference made a part hereof. Notwithstanding the above, the Manager and the Treasurer, shall not be employees of the same member agency without the unanimous consent of the complete Board of Directors.

All privileges and immunities from liability, all exemptions from laws, ordinances and rules, and all pension, relief, disability, workers' compensation, and other benefits which apply to the activities of officers, agents, or employees of a member agency when performing their respective functions shall apply to them to the same degree and extent while engaged in the performance of any of the functions and other duties under this agreement.

None of the officers, agents, or employees directly employed by the Authority shall be deemed by reason of their employment by the Authority, to be employed by any member agency or to be subject to any of the requirements of any member agency.

(L) Accounting and Audits. There shall be a strict accountability of all Authority funds and report of all receipts and disbursements in compliance with Article I, Chapter 5, Division 7, Title I of the Government Code (Section 6500 et seq.). The Board, acting as controller, shall contract with a certified public accountant or public accountants to make an annual audit of the accounts and records of the Authority. In each case the minimum requirements of the audit shall be those prescribed by the State Controller for special districts under Section 26909 of the Government Code and shall conform to generally accepted auditing standards. The records and accounts of the Authority shall be audited annually, and a report thereof shall be filed as a public record with the Authority and with each of its member agencies and the San Mateo County Auditor, not later than six (6) months following the end of the fiscal year under examination. Any costs of the audit, including contracts with or employment of, a certified public accountant or public accountants shall be borne by the Authority and shall be charged against its general fund.

(M) Access to Property. The manager and treasurer are hereby designated as the persons who have charge of, handle, and have access to the property of the Authority. Each such

person shall file with the Authority an official bond in an amount to be fixed by the Board. Cost of said bond shall be paid by the Authority.

(N) Minutes. The secretary of the Authority shall cause to be kept minutes of regular, adjourned regular and special meetings of the Board, and shall cause a copy of the minutes to be forwarded to each director and to each of the member agencies hereto within a reasonable time which shall be fixed by the Board.

(O) Rules. The Board may adopt from time to time such rules and regulations for the conduct of its affairs as may be required. Parliamentary rules and procedures shall be those prescribed in Robert's Rules of Order. Any documents required to be executed by the Authority shall be signed by the Chair and countersigned by the Secretary, except that the Board may, by resolution, authorize other officers or employees to sign on behalf of the Authority.

IV. PLANNING AND PRESENT PROJECT

(A) Planning Policy. In keeping with the purpose of this Agreement, the member agencies hereby authorize and direct the Board to undertake such studies and planning relative to the combined service areas of the member agencies as may be necessary, to provide for the joint collection, transmission, treatment, and disposal of sewage of each of the member agencies. The specific objective of such studies shall be to develop regional solutions to the wastewater treatment and management problems which will be in accordance with all applicable federal, state and regional water quality control requirements, consistent with demographic studies applicable within the jurisdiction of Authority, and planned so as not to result in unreasonable financial burdens on the member agencies whatever course future development of the area might take. It is understood by the parties that this agreement shall not affect the rights or powers of any member agency to plan and/or construct sewer facilities independently.

The studies may include proposals for construction of joint collection systems, trunk and interceptor lines, treatment plans (sic), and disposal systems. The studies may also include proposals to be used in conjunction with facilities not within the Authority's jurisdiction. Any studies shall consider all phases of planning, design, construction, maintenance and operation of facilities proposed by the Authority, and allocation to benefited member agencies of capital, maintenance and operating costs.

(B) Present Project. The Present Project shall be a secondary wastewater treatment and disposal system, divided into four components, to service the combined needs of the member agencies to the year 2000.

(1) Phase I

(a) Components. Phase I of the system is composed of the following three components, with capacity rights, construction costs, and operation and maintenance expenses being shared as specified below, until otherwise determined pursuant to Section (4) hereafter:

(i) An intertie pipeline and attendant pumping facilities, connecting the Montara and Granada systems to a new ocean outfall, shared equally between Montara and Granada;

(ii) An ocean outfall pipeline and attendant pumping facilities, discharging the combined treated effluents from the three member agencies' treatment systems into the ocean adjacent to the existing but presently inoperative Half Moon Bay outfall line, shared one-half ($\frac{1}{2}$) by Half Moon Bay, one-quarter ($\frac{1}{4}$) by Montara and one-quarter ($\frac{1}{4}$) by Granada.

(iii) A reclamation pipeline and attendant pumping facilities, to carry secondarily treated effluent from the treatment plant at the Half Moon Bay site south to the golf course and adjacent agricultural and floricultural lands, and being solely assigned to Half Moon Bay.

(b) Possible Modification of Intertie Pipeline Component. To ensure the accomplishment of the objective of the Present Project, it is the intent of the Authority to seek to increase the gravity sections of the intertie pipeline one pipe size diameter (3 inches) from the existing design, and in pursuit of same, the Authority shall immediately process an application with the California Coastal Commission, Central Coast Regional Commission, for amendment of Coastal Development Permit No. P-79-93. Any modification of said component, pursuant to the cost-effectiveness study mentioned hereinafter or otherwise, shall be accomplished subject to the approval of the State Water Resources Control Board.

(c) Estimated Construction Costs. The estimated construction costs of Phase I components of the Present Project, including administrative, legal, engineering, and contingency expenditures, are: for the intertie pipeline and attendant pumping facilities, \$3,000,000.00; for the ocean outfall and attendant pumping facilities, \$3,600,000.00; and for the reclamation pipeline and attendant pumping facilities, \$600,000.00.

(d) Implementation of Phase I of Present Project.

(i) Authorization to Construct. This Amendment to the Agreement constitutes approval for Phase I of the Present Project and of the budget therefor. The member agencies hereby authorize the Authority to immediately pursue and complete all planning and design efforts, including all requirements of State and Federal law, and to promptly commence construction and to accept State and Federal Grant Agreements therefor.

(ii) Construction Schedule. Construction of Phase I of the Present Project shall proceed on the time schedule as set forth in the Santa Clara County Superior Court's preliminary injunction in case No. 424949, or as said injunction may be amended or modified.

(iii) Utilization, Operation and Maintenance. Each member agency hereby agrees to utilize the Phase I components as said components are completed and available for use, and to ensure the proper operation and maintenance of same in accordance with the requirements of the Regional Water Quality Control Board for the useful life thereof. Pursuant to Article VII of this Agreement, it is hereby determined that the Authority shall have the ultimate responsibility for the maintenance and operation of the Facilities constructed as a part of the Present Project, either with its own personnel or pursuant to contract therefor.

As to any component of the Project not utilized by all member agencies, the member agency or agencies utilizing said component shall have the initial right and responsibility for maintenance and operation of said component.

Service charges shall be established consistent with the Clean Water Grant Program by the Authority or by the member agencies.

It is further hereby agreed that decisions of the Authority with respect to operations and maintenance of Phase I components including the budgets therefor, shall be made based on six affirmative votes, or failing that, five affirmative votes including no less than one vote from each member agency. A member agency shall be entitled to vote only with respect to the operation and maintenance of a facility utilized by said agency.

(2) Phase II

(a) Alternate Treatment Facilities. Phase II of the Present Project will be composed of the fourth component of the system, being treatment facilities as envisioned in one of the following two alternatives:

(i) Single Plant. One single secondary activated sludge treatment plant located at the site of the existing Half Moon Bay treatment plant facilities, and designed to treat the combined flows from the individual collection systems of the member agencies.

(ii) Multiple Plants. Three separate treatment plants as follows:

Half Moon Bay. An upgraded treatment plant located at the site of the present plant.

Montara. An upgraded treatment plant located at the site of the present plant.

Granada. A new treatment plant located in the vicinity of the present plant and pumping facilities.

(b) Determination of Phase II Treatment Facilities. The determination of the Phase II treatment facilities and their capacity, together with the allocation of said capacity and all construction costs and operation and maintenance expenses pertaining thereto, shall be made within the time schedule established in the aforementioned preliminary injunction, or as said injunction may be amended or modified, and after consideration of the following:

(i) A cost-effectiveness study, prepared in accordance with applicable State and Federal regulations governing grant funding for the construction of water pollution control facilities; and

(ii) The Land Use Plan portions of the Local Coastal Programs applicable to the respective member agencies and an analysis of the member agencies' respective sewer service needs pertinent thereto, in relation to the objectives of the Present Project.

(c) Implementation of Phase II of Present Project. This Amendment to the Agreement constitutes approval and authorization for the further planning, designing and the construction of Phase II of the Present Project.

(3) Funding.

Only those components, referred to above, which are fundable under the Clean Water Grant Program, shall be constructed by the Authority.

(4) Allocation and Reallocation of Rights, Costs and Expenses.

In the event the member agencies choose to construct a single consolidated treatment plant facility, capacity rights and construction costs pertaining thereto shall be allocated in proportion to the member agencies' respective service needs as determined by the Land Use Plan portions of the initial pertinent Local Coastal Programs adopted by the California Coastal Zone Conservation Commission; and capacity rights and construction costs previously allocated in the Phase I components shall be reallocated to be consistent with the treatment plant facility allocations, except that no member agency shall receive any capacity in, or ultimately be required to have paid any portion of, the cost of any Phase I component not utilized by that member agency. The total expenses of operation and maintenance of all of the components of the Present Project shall be shared in a manner based on flows into the single consolidated treatment plant facility.

In the event the member agencies choose to construct separate treatment plant facilities, reallocation of capacity rights and construction costs shall occur as immediately above, except that: (i) no member agency shall be allocated less capacity in any Phase I component than the amount of capacity necessary to accommodate the present design capacity of said agency's treatment facility; (ii) no member agency shall be required to pay more than the proportionate share of its capacity in said component; and (iii) no reallocation

shall occur with respect to the reclamation component. The expenses of operation and maintenance of the various components of the Present Project under the separate treatment plant concept shall be borne solely by those member agencies using said components and shall be shared in a manner based on flows into the components.

(5) Goal of the Authority.

In the event the single treatment plant concept is selected as the fourth component under Phase II, it is the intent of the Authority to further consolidate sewer functions within the service areas of the three member agencies, and to establish a uniform system of sewer service charges, levied throughout the entire jurisdiction of the Authority, with which to pay expenses of operations and maintenance.

(6) Credit for Existing Usable Facilities.

It is the intent of the member agencies to integrate existing facilities to the extent possible into all components of the Present Project. Credit shall be given any member agency for any of said agency's facilities so integrated. The credit is to be the lesser of the member agency's actual local costs, or replacement cost, less straight-line depreciation. For purposes hereof, replacement cost means the total replacement cost as distinguished from the total replacement cost less any grant which may be available therefor. Such credit shall be added to the total local share cost of the applicable component into which the existing facilities are integrated, before allocation of local share component costs is made to respective member agencies.

(7) Completion of Present Project.

The member agencies agree to complete the Present Project no later than July 1, 1983, in accordance with the requirements of the Clean Water Grant Program, in a manner that meets the stated objectives of the Present Project, and in a manner that makes maximum utilization of the immediately available funding opportunities under the Program.

(8) Member Agencies' Responsibilities.

Each member agency hereby guarantees its aliquot share of performance under this Agreement, including reimbursement to EPA and the State Water Resources Control Board, as provided by and to the extent set forth in State and Federal statutes and regulations.

(9) Wastewater Treatment Standards and Regulations.

Each member agency hereby agrees to adopt wastewater treatment standards and regulations consistent with wastewater treatment standards and regulations adopted by the Authority.

Such standards and regulations shall include provisions related to industrial waste in which there shall be established criteria for, and restrictions on, the nature and quality of industrial waste discharged either directly or indirectly into the Authority's facilities.

The industrial waste standards and regulations shall authorize the issuance of industrial waste discharge permits thereunder and provide that such permits will be issued by the Authority, shall authorize field inspectors or other employees of the Authority to act as enforcement agents of the member agency with the power to inspect and issue notices for violations of the standards and regulations, and shall confer upon, and empower the Authority to seek civil injunctive relief or criminal prosecution, or both, for noncompliance with, or violation of, such standards and regulations by any discharger.

V. BUDGETS AND PAYMENTS

(A) General Budget. Within sixty (60) days after the first meeting of the Board, a general budget shall be prepared for the balance of the fiscal year. Thereafter at or prior to each March meeting of the Board, a general budget shall be prepared for the ensuing fiscal year. The initial budget and each succeeding general budget shall include the following:

(1) the general administrative expenses of the Authority to be incurred during the period covered by the budget. Each member agency shall, within thirty days of execution of this Agreement, deposit into the general fund an amount obtained by applying to the sum of initial general administrative expenses the percentage of that member agency's voting rights;

(2) the expenses of operating and maintaining any improvements operated or maintained by the Authority;

(3) all revenues accruing to the Authority, including the assessments allocated among the member agencies to cover the general administrative, operating and maintenance expenditures;

(4) At the time of its preparation a general budget shall be submitted immediately to the governing bodies of the member agencies for approval pursuant to Article III, Section (G) above, final approval of a general budget shall require the prior consent of all member agencies. Final approval shall be made by the Board within thirty (30) days after preparation of the initial general budget and by July 1st following preparation of each succeeding budget. A copy of the general budget shall be filed with each member agency.

(5) Each member agency hereby agrees to include in each annual budget approved by the governing body of such member agency amounts estimated to be sufficient to pay all such charges and to pay to the Authority within thirty days of receipt of a statement of the member agency's allocated share of the actual general budget expenses for the billing period as determined by the Board. The Authority is hereby

authorized to take any or all legal actions necessary and permitted by law to enforce the collection of such charges or any other compliance with this agreement, including, but not limited to, actions or proceedings in mandamus to require each member agency to include the amounts estimated to be necessary in each such estimated annual budget, or to collect such charges from the taxpayers, landowners, or users of any of the facilities of the Authority.

(B) Project Budgets. In addition to the General Budget, the Board shall, prior to its initiation of a project, approve the project in concept and have a project budget prepared. Each Project Budget may include the following:

- (1) the Authority's administrative expenses allocated to the project;
- (2) the cost of studies and planning for the project;
- (3) the cost of the engineering and construction of the project;
- (4) the allocation among the participating member agencies of the total project costs including but not necessarily limited to administration, planning, design, construction and operation and maintenance;
- (5) any revenues accruing to the Authority for the project from whatever source.

After the preparation of a Project Budget, it shall be submitted immediately to each member agency proposed by the Board to be a participant and to be obligated for the payment of any amount thereunder. The Authority shall not incur any expense for the project until the Project Budget has been approved by the governing body of each of the proposed participating member agencies. Consent of the participating member agencies shall be required within a reasonable length of time, said time to be determined by the Board when the Project Budget is prepared. Upon approval by all of the participating member agencies, the Board shall adopt the Project Budget and file a copy of same with each of the participating member agencies.

(C) Effect of Failure of Approval of Budgets.

(1) General Budget. If a general budget fails to attain the approval required by Section (A) hereof, the director(s) of consenting member agencies may treat the refusal of a dissenting member agency to approve the budget as a request for withdrawal from the Authority and the remaining members may thereafter, upon giving the non-consenting member agency thirty (30) days notice, proceed with the adoption of a revised budget and the non-consenting member agency shall not be obligated for future debts of the Authority nor shall it receive any benefits therefrom.

Pertaining to past debt obligations, however, the non-consenting member agency shall continue to be obligated for the operation and maintenance costs, under the original allocation formula, of any project in which it continues to derive benefits.

(2) Project Budget. If a Project Budget fails to attain the approval required by Section (B) hereof, the director(s) of consenting participating member agencies may treat the refusal of a dissenting member agency to approve the budget as a request for withdrawal from the project concerned, but not from the Authority, and the remaining participating member agencies may thereafter, upon giving the non-consenting member agency thirty (30) days notice, proceed with the adoption of a revised budget and the non-consenting member agency shall not be obligated for future debts of the project concerned nor shall it receive any benefits therefrom. The cost of preparing the Project Budget shall be divided among the proposed participating member agencies in proportion to allocation of costs to said members in the current general budget.

(D) Contributions; Payments and Advances, Use of Personnel; Equipment or Property; Exchange of Services. It is hereby agreed that:

(1) contributions from a member agency's treasury may be made for the purpose set forth in the Agreement;

(2) payments of public funds of a member agency may be made to defray the cost of such purpose;

(3) each of the member agencies may make advances of public funds, to be repaid as set forth in the Agreement;

(4) personnel, equipment or property may be used in lieu of other contributions or advances, however, all member agencies must agree upon the value to be assigned the personnel, equipment, property or services, with respect to any said contributions or advances;

(5) the member agencies may exchange services without payment of any consideration other than such services.

(E) Expenditures for the Approved Budgets. All expenditures within the designations and limitations of approved general and project budgets shall be made on the authorization of a majority of the directors present at a meeting during which budget expenditures are approved. No expenditures in excess of those budgeted shall be made without the unanimous consent and approval of all of the directors representing the member agencies affected by the budget under consideration.

(F) Payments of Amounts Due; Interest; Surplus. Amounts required to be paid by any member agency shall be due and payable thirty-five (35) days from the date of billing by the Authority. If such amount is not paid in full by the due date, interest will be added from that date at the rate charged by the bank where the Authority maintains its principal account, based on such rate in effect on the first day of the month for which the computation is made on a 30-day \$100,000 certificate of deposit. Interest shall not be compounded.

After completion of the purpose for which funds were provided to the Authority by a member agency, any surplus money shall be returned to that member agency in proportion to the funds (excluding interest) so provided.

(G) Reimbursement of Funds. Grant funds received by the Authority from any federal, state or local agency to pay for budgeted expenditures for which the Authority has received monies from a member agency shall be remitted to that member based upon the ratio of the member agency's advance to the total cost of the project for which the Authority has received the grant.

VI. AUTHORITY PROJECTS

(A) Project Members. The directors representing those members determined by the Board to be participating members of a project shall, upon consent to the proposed project by the participating members, constitute a subcommittee of the Board referred to as the "_____ Project Committee." All actions by a project committee shall be deemed actions of the Authority and shall be taken in the name of the Authority; however, only the participating members of a project shall have rights and obligations in said project as herein provided.

(B) Authority Construction Projects. No project shall be constructed by the Board without the consent of every participating member. Approval of a construction project budget by all of the participating members shall constitute their consent for the construction of the project by the Authority.

VII. MAINTENANCE AND OPERATION OF FACILITIES

(A) Maintenance and Operation of Facilities. The Board shall determine, prior to the construction of any project, whether or not the Authority shall maintain and/or operate such facilities. If the Authority is to maintain and/or operate such facilities, it shall do so in an efficient and economical manner, and in a manner not detrimental to the member agencies. It is the intent of the parties that any project may be maintained and operated in the name of the Authority. If it is determined that one or more of the member agencies shall maintain and/or operate said facilities, said member agencies shall by written agreement consent thereto prior to the construction thereof.

VIII. PROPERTY RIGHTS

(A) Project Facilities. All facilities constructed by the Authority shall be held in the name of the Authority for the benefit of the membership of the Authority in accordance with the terms of this Agreement. Capacity rights in respect to project facilities shall be held for the benefit of the participating member agencies in proportion to each member agency's agreed percentage of capacity rights in such project facility. It is the intent of the foregoing provision that the Authority shall not acquire any unallocated capacity rights in any facility for disposal or use, except for the benefit of the participating member agencies in proportion to their percentage of capacity rights in said facility. Capacity rights may not be reallocated, sold, leased, assigned, or in any way transferred, whether voluntarily, or pursuant to litigation and/or administrative proceedings initiated by, in concert with, with the consent of, or on behalf of the member agency or agencies seeking any such transfers, unless the member agency or agencies, whose capacity rights may be so diminished thereby, shall give written consent to such transfer. In conjunction

with the consolidated San Mateo County mid-coastside wastewater treatment and disposal system (Plan F), being the project authorized to be undertaken by this Authority, .3 mgd treatment plant capacity shall be reserved, for the first ten years of the twenty-year design of said project, for recreational flows. In addition to flows from public recreational facilities such as parks, beaches, marinas, and marine reserves, the term 'recreational' includes recreationally related commercial facilities such as restaurants, motels, golf courses, and stables. Said recreational capacity shall be allocated to the member agencies as they may determine.

(B) Distribution of Assets and Termination of the Authority. To the extent that any funds (or property in lieu of funds) received from any member agency are used for the construction of facilities, the same shall be allocated annually on the books of the Authority to the credit of said contributing member agency. Upon termination or dissolution of the Authority herein created, the facilities, and any funds, in possession of the Authority at such time shall be distributed in kind or sold, and the proceeds thereof distributed to the member agencies at the time of termination and in proportion as their interests appear on the books of the Authority.

(C) Liabilities. Any liability incurred by the Authority during the course of its existence shall be discharged by payments hereby agreed to be made to the Authority by each of the parties hereto in proportion to their contribution or approved participation in facilities of the Authority for which the liability is attributable. Except as hereinabove provided, the debts, liabilities, and obligations of the Authority shall be the debts, liabilities or obligations of the Authority alone and not of the parties to this Agreement.

(D) Failure to Meet Discharge Requirements—Separate Effluent Discharge. The Authority shall cause the effluent of each member agency to be monitored to determine whether or not Federal and/or State discharge requirements are being met. The member agency or agencies responsible for the violation shall be solely responsible for any fines levied or criminal sanctions imposed as a result thereof.

(E) Failure to Meet Discharge Requirements—Combined Effluent Discharge. If the effluent of the member agencies is combined, and the combined effluent at the point of ultimate discharge into the receiving water fails to meet discharge requirements, the member agency or agencies responsible for the violation shall be solely responsible for any fines levied or criminal sanctions imposed. In this regard, the member agency or agencies responsible for the violations shall hold harmless the Authority and the other non-violating member agencies from all liability and/or damages incurred by said Authority and/or member agencies as a direct and proximate result of said violation, including, but not limited to, legal, engineering, and administrative expense and direct or indirect damages incurred by the Authority or the member agency as a result of a cease and desist order or court injunction from any State or Federal agency restricting construction within the jurisdictional limits of said Authority or member agency. In the event two or more member agencies are responsible for failure of the combined effluent to meet discharge requirements as above provided, the member agencies responsible for the violation shall be jointly and severally responsible to the Authority and to the other non-violating member agencies. Upon notification of such violation, the member agency or agencies shall take prompt, corrective action as necessary to meet said discharge requirements. If any member Agency fails to take such action, the Authority by unanimous vote of the Board (excluding those members of

the Board who are representatives of the member Agency or Agencies who are in violation of the discharge requirements) may elect to do either one or both of the following:

- (a) Have undertaken at the cost and expense of the violating member agency or agencies the construction of such additional treatment facilities as are necessary to meet said discharge requirements.
- (b) Impose a prohibition of additional connections to the collection system of the member agency or agencies in violation.

Nothing in this Section shall preclude one or more agencies from providing additional levels of treatment to insure meeting waste discharge requirements in the combined effluent. In the event that one or more member agencies are obligated to provide additional levels of treatment to meet waste discharge requirements for the combined effluent, all member agencies requiring the additional levels of treatment shall participate in the costs of such treatment based on their relative contribution of waste characteristics to be treated and the costs of providing such treatment.

IX. SETTLEMENT OF DISPUTE OR CONTROVERSY

Should any dispute or controversy arise in connection with the books, records or accounts of any party to this Agreement or in connection with the acquisition, construction, maintenance, operation, repair, reconstruction or enlargement of the Joint System or in connection with any of the affairs or operation thereof, or the execution of the term of this Agreement, the governing bodies of the parties to this Agreement may elect to arbitrate the dispute or controversy in accordance with the rules of the American Arbitration Association or by any other mutually agreeable method of settlement.

X. MISCELLANEOUS PROVISIONS

(A) Duration. The Authority shall continue until this Agreement is rescinded as herein provided.

(B) Rescission and Termination. This Agreement may be rescinded and the Authority terminated by written agreement of all member agencies. Upon termination of the Authority, its assets and liabilities shall be divided among the then member agencies in proportion to their then ownership interests.

(C) Withdrawal. Any member agency may withdraw from the Authority at any time upon giving each of the other member agencies one hundred and twenty (120) days written notice prior to the end of the fiscal year; provided, however, in the event the withdrawing member agency has any rights in any facility of the Authority or obligations to the Authority, said member agency cannot sell, lease or transfer said rights or be relieved of its obligations, without the execution of a written agreement executed by it and another member agency. The term "obligations" as used herein shall include, but not be limited to, bonded indebtedness and

capital replacement costs. Upon termination, a withdrawn member agency will be treated like all the other member agencies in regard to the provisions of Article VIII (B) hereof.

(D) Amendments. Exhibit "A" hereto shall be amended or supplemented upon a member agency filing with the Authority a certified copy of the member agency's resolution ordering a change of its boundary or service area boundary or resolution determining to withdraw from the Authority. The other provisions of this Agreement may be amended only by the consent of all member agencies.

(E) Severance. If any section, subsection, sentence, clause or phrase of this Agreement, or the application thereof to any of the member agencies or any other persons or circumstances, is for any reason held invalid, the validity of this Agreement, or the application of such provision to the other member agencies or to any other person or circumstances, shall not be affected thereby. Each of the member agencies hereby declares that it would have entered into this Agreement, and each section, subsection, sentence, clause or phrase thereof, regardless of the fact that one or more sections, subsections, sentences, clauses or phrases, or the application thereof, to any member agency or any other person or circumstances be held invalid.

(F) Filing with the Secretary of State. The Secretary of the Authority shall file with the Secretary of State a notice in accordance with Government Code Section 6503.5, and shall file notices, as appropriate, in accordance with Government Code Section 53051.

IN WITNESS WHEREOF, the parties hereto have caused these presents to be executed on the day and year first above written.
